BY ROSA JEON

# *introduce* **ABOUT ME**

I am a first-year student in Canada,  
who is studying Computer Science at  
the University of Waterloo.

I dream to solve problems in the  
world of art and computers.

JAN 2023

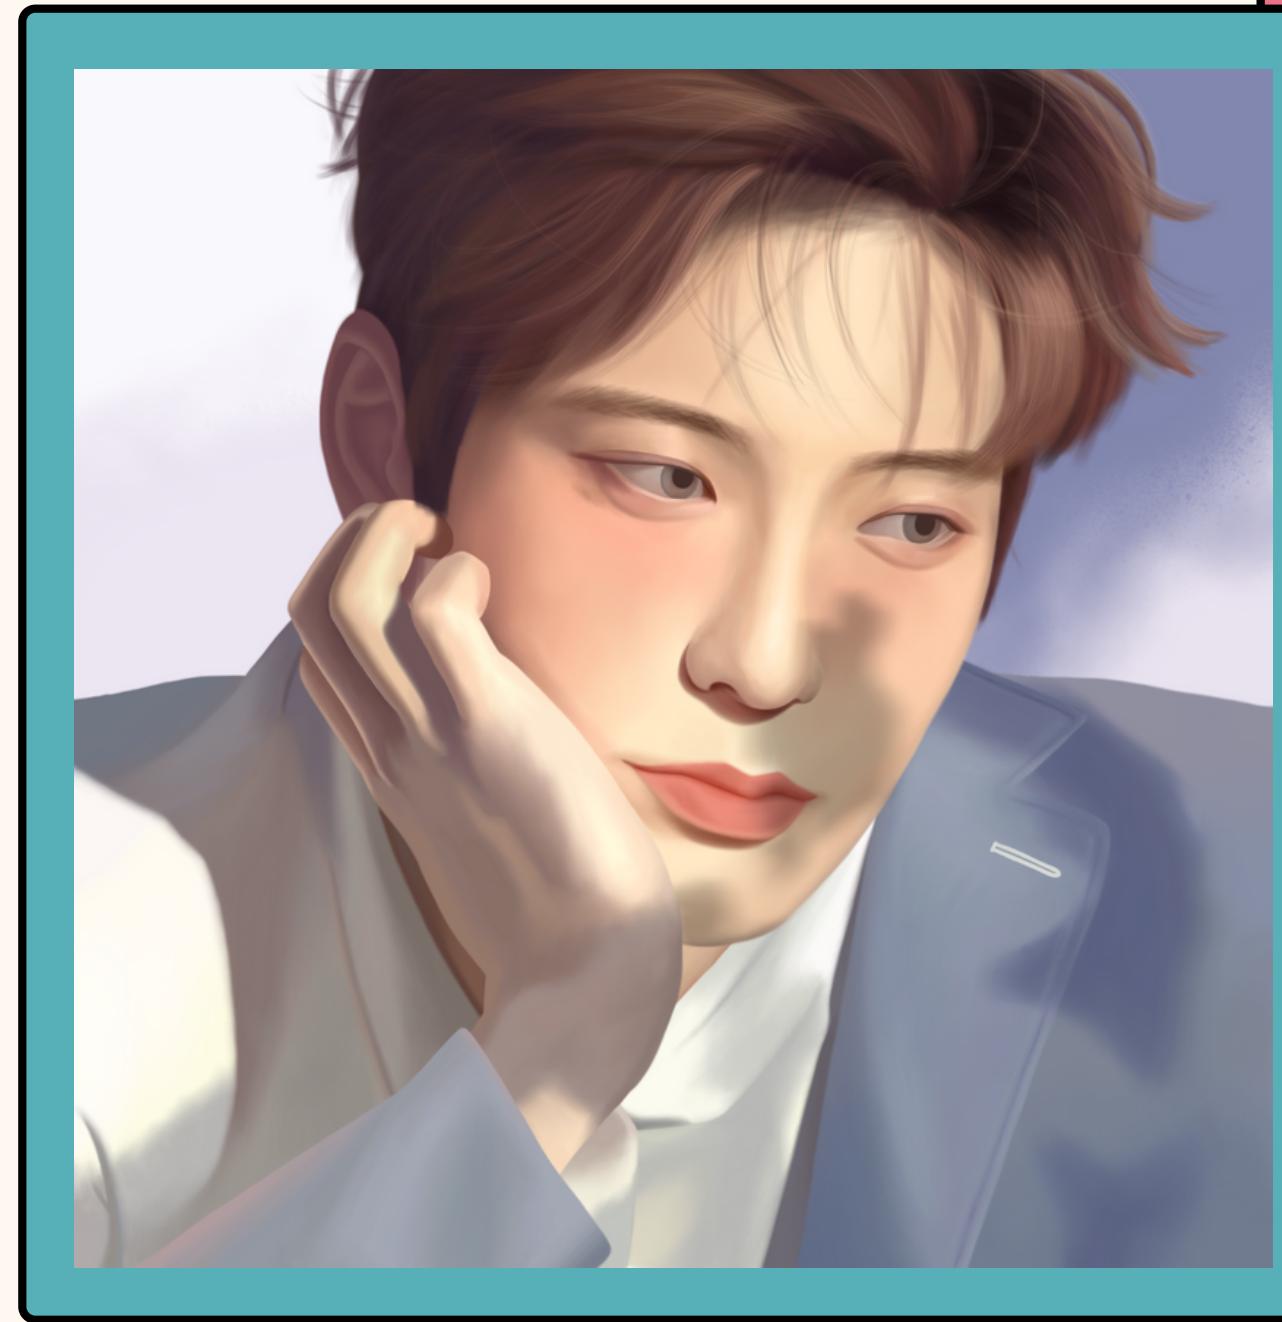

WEB GAME

Created mainly using Three.js,  
I worked with Cannon.js to  
make the interactive and to  
add animations.

This game is playable on web,  
with the character being the  
3D model I designed on  
Blender.

DIGITAL

The two individuals are drawn digitally on Procreate, they are fan art of two Korean actors on the rise, IU and Jaehyun.

The palette used for these two pieces creates a dreamy feel to the pieces.

# GRAPHITE

## [5/7]

Paper and pencils from HB to 4B were used to finish these two graphite pieces.

From dark shadow reflecting off the surface of the kettle to the fluffy hair of the cat, I put in my best to analyze the features of the model to create still-life pieces. →

ACRYLICS

Little strokes are the main element of my paintings.

These strokes differentiate my painting from others by adding more detail and catches audience's eyes.
